New Policy for Institutions of Affiliated and Unaffiliated Sites:
Monitoring Sponsored Centers Non-profit Food Service and Procurement Procedures.

Sponsoring organizations are responsible for reviewing the food service operations of their sponsored facilities to assess compliance with meal patterns, licensing/approval status, attendance at training, meal counts, recordkeeping (menu and meal records), the annual updating and content of enrollment forms (if the facility is required to have enrollment forms), and other Program requirements. Reviews must be made at least three times each year at each facility (unless the sponsoring organization has elected to use a review averaging system.)

This new memorandum specifically applies to institutions of affiliated and unaffiliated sites and is designed to provide guidance to sponsoring organizations regarding the monitoring requirements of their sponsored centers non-profit food service and procurement procedures. Sponsors of day care homes are exempt from meeting the requirements in the new memorandum.

In addition to the new memorandum, the following forms/documents have been revised to capture the required non-profit food service and procurement assessment for sponsored sites:
- Child Care Center Monitoring Form,
- Child Care Center Monitoring Form Instructions,
- Adult Day Care Center Monitoring Form, and
- Adult Day Care Center Monitoring Form Instructions.

For your reference, the general Monitoring Requirements policy memorandum has been updated and can be located here.

Reminder: Review Your Online CACFP Applications for Accuracy

Institutions and Sponsors are required to review and ensure that all sections of their CACFP application in GA ATLAS are accurate at all times. Failure to maintain an accurate application could result in a finding(s) and/or an adverse action.

Questions and Answers for Child Nutrition Program Operations in School Year 2021-2022

On June 11, 2021, USDA issued the memorandum, *Questions and Answers for Child Nutrition Program Operations in School Year 2021-2022*. This guidance compliments the set of USDA waivers issued April 20, 2021 (Responses #84 through #96) and provides clarification on questions related to Child Nutrition Programs, including the Child and Adult Care Food Program (CACFP) for the upcoming school year.

Information outlined in this memorandum includes, but is not limited to the following:
- the Summer Food Service Program (SFSP) has not been extended for school food authorities (SFAs) or non-school sponsors in 2021-2022. Instead, schools will operate the National School Lunch Seamless Summer Option (NSLP SSO);
- FNS issued a targeted meal pattern waiver;
- the non-congregate meal service, meal times requirements, and parent/guardian pick-up waivers have been extended;
- allows At-Risk Afterschool Care Centers, regardless of their location, to claim CACFP meals and snacks at a free rate; and
- day care homes are eligible to receive the tier I reimbursement rates.

A copy of the guidance can be found [here](#) and see also the section below, Update on Nationwide Waivers During COVID-19. Further guidance on how to apply for the USDA waivers for the upcoming program year is forthcoming.
Update on Nationwide Waivers During COVID-19

In light of the exceptional circumstances of the current public health emergency, the Food and Nutrition Service (FNS) has extended Nationwide Waivers to support access to nutritious meals while minimizing potential exposure to the novel coronavirus.

Local Sourcing Spotlight
It’s Tomato Season!

It’s tomato season! Not typically grown outdoors in many states, Georgia, however is an ideal climate to grow tomatoes minus a greenhouse.

Did you know this miscategorized vegetable is actually a fruit? It’s a berry! High in vitamins but low in fat and calories, tomatoes are available throughout most of the year and grown in highest number in Southwest Georgia.

Are you looking to purchase locally grown tomatoes? Visit Burnell Farms in Royston, GA. This local producer has a wide selection of local fruits and vegetables grown throughout the spring and summer.

For questions regarding procurement, please contact LaMonika Jones Procurement Compliance Officer.

Nutrition Ed Nook
A Tasteful Menu Addition of Terrific Tomatoes

Tomatoes are tender and ripe this month as our June Harvest of the Month (English and Spanish)
According to the Georgia Department of Agriculture, tomatoes are grown in southwest Georgia and are one of the state’s top cash crops. This makes tomatoes an optimal produce item to source from your local farmers!

When sourcing fresh tomatoes, choose ones that are smooth, ripe, and blemish free. As a versatile and fresh vegetable, tomatoes can be added in a variety of ways to your menu. Serve them on top of fresh sandwiches, chopped up on salads, made into salsa for tacos, diced in omelets, or sliced as a vegetable side.

Looking for multicultural connections? Introduce your children to the history of tomatoes! The tomato is native to the Peru, Bolivia, and Ecuador area of the Andes Mountains, and was introduced to Central America and Mexico by prehistoric migrations of Indians.

Integration:
- Jollof Rice
- Jerk Fish Wrap
- Bean Burrito Bowl
- Chicken Flatbread Pizza
- Black Beans with Plantains
- Breakfast Burrito with Salsa
- Arroz Con Pollo (Rice with Chicken)

Education:
- Grow tomatoes in containers or raised beds via direct seed or transplants. Have children help plant, water, care for, and harvest the tomatoes. When children are part of the growing process, they are more likely to try them while also fostering an appreciation for growing their own food!
- Make a variety of cultural dishes that include tomatoes to share various meals from across the world with your children. Try some of the recipes above in your program!
- Read different books themed around tomatoes. Examples include Bear and Bunny Grow Tomatoes by Bruce Koscielniak or Chicks and Salsa by Aaron Reynolds. Find more tomato-themed book recommendations here!

Conversation:
- What size tomatoes have your children tried? Large beefsteak tomatoes, medium roma tomatoes, or small cherry tomatoes? Maybe all of the above! Bonus: do a taste test with various sizes and colors of tomatoes.
- What other red fruits or vegetables do your children enjoy eating?
- Have your children eaten tomatoes before? How do they like them prepared?

Share your summer Harvest of the Month stories and menu integration of tomatoes with Nutrition Health Educator, Diana Myers, MS, RD, LD at diana.myers@decal.ga.gov!
