NEW! The Creative Curriculum®
for Preschool, 6th Edition

In its latest edition, The Creative Curriculum® for Preschool is still everything that teachers love: a comprehensive, research-based curriculum that features exploration and discovery as the way of learning. The Foundation helps teachers create a high-quality learning environment and build a thorough understanding of best practices. And Daily Resources help teachers plan and manage every moment of their day. Through studies, which are hands-on, project-based investigations, The Creative Curriculum® for Preschool helps teachers build children’s confidence, creativity, and critical thinking skills and promote positive outcomes.

What’s New in the Sixth Edition
We updated The Foundation to keep pace with new research and the evolving needs of early childhood educators. A brand-new volume, Science and Technology, Social Studies & the Arts, helps teachers encourage children to make and test hypotheses, develop skills for using technology, explore their world and the people in it, and engage their creative thinking skills. We also expanded the Objectives for Development & Learning volume, enabling teachers to see children’s development and learning along a progression across the whole of the early childhood years.

Expanded Daily Resources*
Our Expanded Daily Resources give teachers even more options for engaging children in project-based investigations. They give teachers five brand-new studies of fascinating and familiar topics, with new daily plans that offer guidance for every part of their day. They offer a rich collection of additional instructional tools, including 50 new Intentional Teaching Cards™, 100 More Mighty Minutes®, brand-new children’s books and Book Discussion Cards™, and new support for literacy learning with Highlights High Five Bilingüe™ and the accompanying Book Conversation Cards™.

Objectives for Development and Learning from Birth Through Third Grade
Thirty-eight objectives for development and learning now span the whole of the early childhood years. They include predictors of school success and align to the Common Core State Standards, the Head Start Child Development and Early Learning Framework, and state early learning standards.

Support for Every Moment of the Day
Resources help educators to individualize instruction to meet the needs of every learner and ensure that all the important areas of learning are addressed throughout every part of every day.

Support for English- and Dual-Language Learners
The curriculum offers complete support for working with English- and dual-language learners, including detailed guidance that helps to build teachers’ knowledge about best practices.

* Implementing the Expanded Daily Resources requires resources from The Creative Curriculum® for Preschool.
