Steeped in science and story, The InvestiGator Club connects children to their world.

Overview

This comprehensive learning system builds upon children’s natural curiosity about the world and their place in it. Purposeful inquiry, the heart of The InvestiGator Club®, awakens the scientist and explorer in every child. Children learn to use their senses, ask questions, and find answers in a supportive, print-rich environment. Our philosophy balances child-centered learning with intentional instruction, family engagement, and authentic and performance-based assessment. Through seven investigations, teachers nurture initiative and curiosity, engagement and persistence, reasoning and problem solving. Investigations integrate experiences in ten key learning domains focused on STEAM, Language and Literacy, Social-Emotional, and Physical Development.
