Supporting Onsite Learning for Virtual Education Program

Georgia’s Virtual-Only School Districts

Overview

The Georgia Department of Education reports that the following school districts are primarily offering virtual learning (50% or more of classroom instruction is virtual for any grade level kindergarten-7th). Families whose students attend these school districts will meet the school district eligibility requirement for a SOLVE scholarship. Additional information on the eligibility requirements for a SOLVE scholarship is available here.

Eligible School Districts

DECAL will update the list of virtual-only school districts as we receive updates from the Georgia Department of Education. This document was last updated on October 19, 2020.
