SRA Wright Group

These research-based literacy programs will help you create a rich curriculum to meet individual student needs.

Our programs incorporate the seven steps research has shown to help children become successful and independent readers and writers:

- Oral Language Development
- Phonological and Phonemic Awareness
- Print and Book Awareness
- Alphabetic Knowledge
- Awareness of the Alphabetic Principle
- Emergent Writing
- Shared Reading: Building Comprehension

The NEW DLM Early Childhood Express is a comprehensive, research-based Pre-K curriculum that develops children's minds and bodies through carefully sequenced learning experiences. This integrated program provides:

- Comprehensive English and Spanish curriculum spans nine essential disciplines
- 8 Engaging themes of instruction
- Literacy, mathematics, science, social studies, fine arts, health/safety, social-emotional development, physical movement, technology
- Research-based program develops children's minds and bodies
- Enhanced oral language development and ELL support
- Weekly home connections in English and Spanish

The *Imagine It!* program draws from research-proven strategies about how children learn to read that are combined in a program that's fun for children and easy to teach!

- Develops and fosters reading and language skills
- Helps children learn about books and print
- Provides enjoyable experiences with literature, informational stories, poetry, folktales, rhymes, and more
- Introduces the alphabet, its letters, their sounds, and their relationships
- Teaches about stories and how they work
- Focuses children on the joy that learning brings
- Integrated technology provides an electronic Teacher's Edition and games and books for students.

Doors to Discovery is a research-based literacy program aligned with the IRA/NAEYC Joint Position Paper and Head Start Outcomes. Eight explorations provide everything you need for a fully integrated, literacy-enriched preschool curriculum you can use to:

- Develop oral language and phonemic awareness
- Build print awareness, alphabet knowledge, and early writing skills
- Correlated to Head Start outcomes
- Literacy centers support language and literacy growth through purposeful play

Breakthrough to Literacy provides an integrated print and software curriculum that supports students in the acquisition of language and literacy skills. Rich literary experiences and purposeful discussions support development of all five components of reading.

- Introduce children to a wide variety of authentic literature to foster a lifelong love of reading
- Support classroom instruction with intuitive software for student practice and progress monitoring
- Receive ongoing professional development support from certified literacy consultants
