## Introduction

States receiving federal Child Care and Development Block Grant funds are required to conduct a child care market rate survey and/or cost analysis every three years to inform setting of the state’s child care reimbursement rates. In 2023, the state requested providers update their rates in the state’s administrative data system. This update was required for providers applying for federal stabilization funding.

For this analysis, the Georgia Department of Early Care and Learning (DECAL) provided contractor Care Solutions, Inc. Excel spreadsheets with provider information as of October 2023 with a total of 4,425 child care learning center and family child care learning home records, 3,435 of which (78%) had rates that were confirmed or updated in 2023.

Of interest to DECAL were overall rates, rates by previously established market rate zones, rates by participation in the state’s child care subsidy program, and rates by level of quality as indicated by star ratings awarded by the state’s Quality Rated program.

The administrative data included weekly full-day rates by single year age, from less than 1 to age 5 (kindergarten) as well as weekly day camp rates for children ages 5 and over and daily drop-in rates for each age group.

## Data Description

The provider records eligible for data analysis included child care learning centers and family child care learning homes with rates updated or confirmed in the state’s administrative data system in 2023 through October. The data in this report are based on those 3,435 records.

### Providers by Type

Facility Type		Number	Percent
Child care learning center	CCLC	2,568	74.8%
Family child care learning home	FCCLH	867	25.2%
<b>Total</b>		<b>3,435</b>	<b>100.0%</b>

### Licensed Capacity by Provider Type

Provider Type	Number	Statistics for Licensed Capacity				
		Mean	Median	Std. Deviation	Minimum	Maximum
<b>CCLC</b>	2,568	121	104	81	9	987
<b>FCCLH</b>	867	6	6	<1	3	6
<b>Total</b>	3,435	92	76	86	3	987

## Zone

Based on historical market rate survey data and county-level demographic data, the state has been divided into three market rate zones, with Zone 1 consisting primarily of greater Atlanta urban and suburban counties, Zone 2 of counties with other urban and suburban areas, and Zone 3 of counties with rural areas and smaller cities and towns. Just over half of the providers (52%) are in Zone 1.

### Providers by Type and Child Care Market Rate Zone

Zone	Facility Type		Total	
	CCLC	FCCLH	Number	Percent
1	53.3%	46.9%	1777	51.7%
2	33.4%	36.0%	1170	34.1%
3	13.2%	17.1%	488	14.2%
<b>Total</b>	2,568	867	3,435	100.0%

## CAPS participation

Childcare & Parent Services (CAPS) administers the state's child care subsidy program. Based on the state listing, more than two-thirds of providers (70%) participate in the CAPS program. Following is the breakdown of CAPS participation by provider type.

### Providers by Type and CAPS Participation

CAPS Provider	Facility Type		Total	
	CCLC	FCCLH	Number	Percent
Yes	77.8%	45.3%	2391	69.6%
No	22.2%	54.7%	1044	30.4%
<b>Total</b>	2,568	867	3,435	100.0%

## Quality Rated

The state's Quality Rating and Improvement System issues star ratings for providers who achieve a specific level of quality. Following is the program status for providers updating or confirming rates in 2023, as of October:

Quality Rated	Facility Type		Total	
	CCLC	FCCLH	Number	Percent
3 Stars	13.6%	11.1%	446	13.0%
2 Stars	37.3%	22.0%	1149	33.4%
1 Star	21.7%	16.1%	696	20.3%
Participant, not rated	17.3%	27.1%	680	19.8%
Non-participant	10.1%	23.6%	464	13.5%
<b>Total</b>	2,568	867	3,435	100.0%

## Child Care Market Rates

Child care market rates were based on reported weekly full-day care rates and daily drop-in care rates by specific age, and weekly drop-in care rates. Additionally, the average weekly full-day rate was calculated from the weekly full-day rates ages 0-4.

Rate highlights:

As in previous studies:

- Average (0-4) child care learning center rate percentiles were typically higher than those for family child care learning homes.
- Average Zone 1 rate percentiles were typically highest, followed by Zone 2 rates and then Zone 3 rates.
- Average rate percentiles for programs without a Quality Rating (whether participating in the program or not) were typically higher than those of rated programs.

Findings also showed:

- Average rate percentiles for child care learning centers participating in the CAPS child care subsidy program were typically lower than those of non-participating programs. For family child care learning homes, the average rate percentiles were slightly higher for those participating in CAPS compared to those who were not.
- For Quality Rated, 3-star average rate percentiles were typically highest, followed by 2-star and then 1-star rate percentiles for family child care providers. For child care learning centers, the pattern was inconsistent, with three-star average rating percentiles slightly lower than the two-star ones, while two-star average rating percentiles were slightly higher than the one-star ones.

Not surprisingly, average 0-4 rate percentiles were higher for October 2023 compared to average 0-5 rate percentiles based on the 2021 child care market rate survey. This is likely due to the impact of the pandemic on the 2021 survey as well as the increased inflation that began in 2021, peaked in 2022, and had not returned to pre-pandemic levels in 2023.

## Average Weekly Full-Day Rate Percentiles Summary

The following table summarizes the average weekly full-day rate percentiles by provider type and category for the 2023 administrative data and the 2021 child care market rate survey data.

Category	Facility Type	Number Reporting Rate, 2023	Average 0-4 Rate Percentiles, October 2023			Number Reporting Rate, 2021	Average 0-5 Rate Percentiles, 2021		
			25th	50th	75th		25th	50th	75th

The following detailed tables present child care market rate statistics by provider type (and age group for weekly full-day and daily drop-in rates) and:

- Statewide
- By current child care market rate zone
- By Quality Rated ratings
- By CAPS participation

NOTE: Rates reported by a small number of providers in any specific rate category may not be representative of market rates in that category and must be interpreted with caution.
