

How to Read a History Grid

DATE

At the top of the document, the time period included in the history grid is listed. Compliance is typically determined by the last 12 months of history.

CONTACTS

The name, licensing number, and address of the program is listed next above the grid. It also shows the last CCS Consultant to visit the program under the Regional Consultant heading.

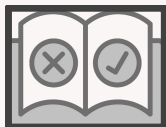

ROWS: RULES

In the grid itself, the rule topics and rule numbers that have been cited are listed by rows.

COLUMNS:
VISITS

Each subsequent column shows the type of visit, date of visit, compliance outcome, and which rules were cited during that visit.

CITATIONS

An X indicates a non-core rule was cited. Text in a column indicates a core rule was cited at low, medium, or high severity. Repeat citations exist when there have been multiple visits that cited the same rule.

COMPLIANCE
OUTCOMES

GS = Good Standing, S = Support,
and D = Deficient.

Points and enforcement boxes indicate factors that led to compliance outcome. Repeat citations and severity citations result in more points, and the more points a program has, the more negative their compliance outcome. The enforcement box indicated explains where the outcome falls on the DECAL enforcement chart.
