

February 2, 2026

Greetings CACFP Sponsors and Institutions,

Milk in the CACFP

On January 14, 2026, the Whole Milk for Healthy Kids Act passed allowing K-12 schools participating in the ***National School Lunch Program*** to offer whole and reduced-fat (2%) milk alongside lower fat options for children to select at lunch. Click [here](#) to learn more.

Please note this does not apply to child care programs, at-risk afterschool programs, and other participants of the Child and Adult Care Food Program (CACFP).

Sites participating in the CACFP must continue to follow the current CACFP milk requirements for meals and snacks to be eligible for reimbursement. This includes a requirement to serve fat-free (skim) or low-fat (1%) milk to children two years and older. For more information about milk requirements in the CACFP, see:

[Serving Milk in the CACFP](#)

If we are notified of any changes regarding milk or any other meal component in the CACFP, we will immediately notify all CACFP institutions and provide appropriate training and technical assistance.

If you have further questions about milk requirements for CACFP, contact your assigned **Technical Assistance Coordinator**.

Regards,
Nutrition Services

Together, we can help feed Georgia's Children & Adults.

This institution is an equal opportunity provider.
