Music and Movement

Banana, Banana, Meatball presented by Go Noodle [Banana, Banana, Meatball](#)
Pop See Ko presented by Go Noodle [Pop See Ko](#)

Phonological Awareness

After listening to the nursery rhyme, [Humpty Dumpty](#), talk about the rhyming words wall, fall and all.
Ask your child to name other words that rhyme with those words.
Have your child act out the rhyme and say it throughout the day.

Literacy

[The Great Eggscape](#) read by King of the Classroom

After listening to the story, help your child cut out an egg on the thickest paper you have. Cardstock or construction paper would be great, but any type of thick paper will do. Let your child use glue to make designs on the egg and pour salt over the wet glue. Allow that to dry and let your child paint the salt with water that has been colored with food coloring. A paint brush or Q-Tip will work for painting.
When finished your child will have colorful eggs just like in the book.
You could also help your child cut out smaller eggs and decorate them. Once they are dry, hide them around the house and have an egg hunt, just like in the story.

Math

Using a deck of playing cards or set of UNO cards (remove the word or Royal Suite cards), have your child match the cards by numbers. You can also use the cards to play a memory game together.

Science

Help your child build a boat with tin foil. Take a square of foil and fold it so the edges form a boat. There are many different ways to do this. Place the boat in water to see if it floats. If it does, see how many pennies, buttons, or small objects it will hold. You could do this at bath time, in the sink, or even in an inflatable pool outside.
Google and Pinterest have many ideas of other ways to do this activity.

Post pictures of you and your child learning together using #gaprekathome
