

## **WIDA Early Years Learning Language Every Day: Activities for Families**

The WIDA Early Years Learning Language Every Day: Activities for Families is a resource for families that supports conversations with young children about their families and environments. Children learn language by listening to those around them and then using their language skills to respond. The activities in these booklets allow for conversations with children about their family, what they like to play, how they feel, what sounds they hear around them at home or in the community, and the weather. The booklets may be downloaded for printing and sharing and are appropriate for ages 2-7 years.
