Work Sampling Online (WSO) Reminders

Allow this email to serve as a reminder that all your students should be entered into WSO. If you have not yet entered all your students, instructions for creating a class and adding students can be found under the "How To" tab using the link provided below.

If you have students that enrolled in your class after September 16th, contact your director/principal for an updated copy of the PANDA Roster Report. If you have any problems entering students, *click* **here to submit a Help Ticket.** Select the option "I have a problem with adding a student." If a student record already exists, we will transfer the record for you.

All students should have a Developmental Checklist in WSO for Period 1. If you have not created your checklists and need assistance in getting started, refer to the link below to access the online WSO Training Manual and available resources.

If you are a **NEW** GA Pre-K Lead Teacher and have not entered WSO data because you have not yet attended 2022-23 New Teacher Work Sampling Online Training, contact the Pre-K Specialist assigned to your program for guidance in meeting the Pre-K requirements for assessment.
